Looking at the impact of electricity on music: The Digital Democracy of Sound
Digital technology has changed how we find, how we make and how we listen to music. Sometimes it's easier to get a hold of your favourite track than it is to get a good cup of coffee. Sounds are sampled, mixed and shared on a scale that eclipses our wildest dreams from even a decade ago. This has created wonderful and terrible consequences, opening the door to pirates but also to a new world of music - the fourth world, where anything is possible (F, CBC)
