6:00 Breakfast with Paul Brennan

An early miscellany of music, stories and random thoughts.

7:35 Worldwatch with John Greaves

8:10 Queen's Birthday with Charlotte Graham

An upbeat mix of the curious and the compelling.

12:00 The World at Noon

A roundup of today's news and sport

12:12 Matinee Idle

Phil O'Brien and Simon Morris present an afternoon of alleged music and dubious entertainment.

5:00 The 5 O'Clock Report

A roundup of today's news and sport

5:12 European Unicorns

Unicorns are private start-up companies, mainly in the tech or internet sector which are valued at a billion dollars or more.

Caroline Bayley asks how "real" the tech unicorns are and whether the billion dollar plus valuations are fuelling another tech bubble which could be in danger of bursting. From BBC Global Business

5:45 Local Identity by Jenny Pattrick

The townies staying at Piwari at the ski season decide to hold an art exhibition. Vera is not impressed. Then she becomes angry.

6:06 The Secrets of Songwriting

Some of the world's greatest musicians answer a simple question: how do you write a song?

A BBC World Service Music Extra Documentary

7:00 Account of the Inlanders' Outing by Tina Shaw

A short story about a special trip organised to give a small group their first ever view of the sea.

8:30 Windows on the World

International public radio features and documentaries

9:30 Insight

An award-winning documentary programme providing comprehensive coverage of national and international current affairs (*RNZ*)

10:00 The 10 O'Clock Report

A roundup of today's news and sport

10:15 Are we Fighting Cancer the Right Way?

The World Health Organisation says the number of cancer cases will rise by 70% over the next 20 years. A huge amount of effort and money is spent fighting the disease. But are we getting that fight right? In this special hour-long edition of The Inquiry four expert witnesses tell us new ideas are being stifled, that there is not enough money being spent on drugs to treat early-stage cancer and that we are not doing enough to stop people from getting cancer in the first place. The Inquiry puts that evidence to someone in a position to do something about it - Dr Francis Collins, director of the US National Institutes of Health, the world's largest biomedical research agency, with a budget of \$32 billion. From the BBC World Service Series: The Inquiry

11:06 Beale Street Caravan

David Knowles introduces the Memphis-based radio show with an international reputation for its location recordings of blues musicians live in concert (*BSC*)
