Denmark's Wind Power Progress

Denmark is on course to generate 50% of its electricity from wind power in the next three years. The move towards clean energy and self sufficiency stands in stark contrast to the situation the country found itself in after the 1973 oil crisis when street lighting was reduced and people were told not to drive on Sundays.(BBC)

6:30 Asian Flyway #4

The final programme in a 4-part series tracking shorebirds on their annual journey from Australasia to the Arctic. They follow the planet's most gruelling migratory route - the East Asian Australasian Flyway. Ann Jones watches wading birds such as curlews,

godwits and sandpipers prepare for their epic journey. They fatten up to fuel the flight, they grow bigger hearts and flight muscles and just before departure, they shrink their digestive organs to become the most efficient flying machines for their first 7 day non-stop flight (BBC)
